### **IOTTIE INC. PRESENTS THE INNOVATED ION WIRELESS GO** *The Newest Portable Battery Pack with Qi Certified Wireless Charging*

**NEW YORK, NY, December 6, 2019** - iOttie Inc., the premiere accessories brand focused on user-friendly technology, has launched their first iON portable battery pack, the **iON Wireless Go**.

The iON Wireless Go, an extension of the iON Wireless charger series, is a portable sleek battery pack that wirelessly charges any Qi-enabled smartphone efficiently. The iON Wireless GO delivers optimal power to other devices through bi directional USB-C and QC 3.0 USB-A ports. Simultaneously charge any smartphone device on the go with a maximum output of 18W and 10,000 mAh internal battery power.

Designed to complement any personal style or preference, the iON Wireless Go features multiple fabric colors including Ash and Ruby. This innovative device also displays battery levels accurately with a discrete LED screen indicator.

The iOttie iON Wireless Series also includes the iON Wireless Plus: Fast Charging Pad, iON Wireless Stand: Fast Wireless Charger, and the iON Wireless Mini: Fast Charging Pad.

The iOttie iON Wireless Go is now available for \$39.95 at [www.amazon.com](http://www.amazon.com).

#### **About iOttie Inc.**

Since 2010, iOttie has been revolutionizing the way consumers are using their smartphones inside their vehicles. The iOttie team of engineers, designers, and marketing specialists understand the growing market and trends that are occurring within the wireless industry. With this knowledge, they are able to seamlessly bring quality smartphone car mounts that offer safety and security while driving. Today, iOttie's product portfolio includes accessories suitable for travel, smart homes, and outdoor lifestyle.

iOttie Inc. has been awarded five consecutive CES Innovation Honoree Awards since 2011 and continues to introduce new products to the market.

iOttie - Mount Smart. Drive Smarter!
