

iOttie's Auto Sense Car Mount Brings Automatic Mounting To Your Vehicle

iOttie is combining Safety and Convenience with the new Auto Sense Mount.

NEW YORK — Sept. 20, 2019 — [iOttie](#), a leading mobile accessories company, today launched Auto Sense, a motorized smartphone car mount that features automatic clamping and Qi Wireless Charging. Customers can purchase the device on [Amazon.com](#) for \$59.95. The Auto Sense features an all-new automatic mounting mechanism that allows users to automatically lock and releases their device, all while charging wirelessly on the road.

The Auto Sense is an advanced automatic wireless charging car mount designed to maximize convenience and power on the road. Users can mount their smartphones easily with the Auto Sense feature that is powered by a proximity sensor and servo motor. To mount your device, simply place the phone near the mount's sensor, and the Arms will automatically close to secure the device.

"The Auto Sense offers an exciting opportunity to support our customers' needs in new ways," said Eric Kang, Senior Director at iOttie. "The convenience and safety of the Auto Sense, which provides an automatic open/close feature along with Qi Wireless charging, providing the opportunity to make our customer's commutes and car rides safer and more convenient."

Once mounted in the sturdy cradle, Qi wireless charging technology delivers power to the smartphone automatically without the need for additional charging cables. Users can release and retrieve smartphones easily by simply tapping the Release Buttons on the side, and the Arms will open automatically. The Auto Sense smartphone mount is easy to set up and adjust with a strong Suction Cup that installs on your dashboard or windshield for added versatility.

The Auto Sense Dash and Windshield Mount is available for purchase on Amazon and customers can receive a 10% discount with code: 10AUTOSENSE now through October 19, 2019. A CD Slot and Air Vent Mount combo will also be available via Amazon beginning early October 2019.
