

iOttie Announces the iON Wireless Fast Charging Stand, the Perfect Back to School or Holiday Gift

A five-time CES Innovation Award winner for wireless charging, iOttie reimagines charging solutions with its iON Wireless Fast Charging series.

NEW YORK - Sept. 5, 2018 — [iOttie](#), a leading mobile accessories company, today launched the [iON Wireless Fast Charging Stand](#), an upright, fabric-wrapped wireless charging stand that enables users to easily use their phone while efficiently charging their device. The beautifully designed stand joins iOttie's popular line of iON Wireless [Fast Charging Pads](#), which are regarded as some of the [best looking wireless chargers on the market](#). A useful and stylish tech accessory, iOttie's iON Wireless Fast Charging Stand is the perfect gift for connected students heading back to school, or any tech lover in your life.

"We're excited to introduce the iON Wireless Fast Charging Stand, a user-friendly device that delivers on both form and function," said Eric Kang, Senior Director at iOttie. "By designing a charger that positions your phone so you can still use the screen and view notifications, we have created a wireless charging solution that blends into users' living spaces while supporting their fast-paced lifestyles."

To further accommodate any user's preference, the iON Wireless Stand features two Qi coils that enable both portrait and landscape wireless charging. The base is built for balance and includes anti-slip material to provide extra traction on smooth surfaces. Available in ruby, ash or ivory fabric finishes, the iON Wireless Stand is sure to be a go-to tech staple in any household or college dorm room.

The Stand is now available from Amazon, [iOttie.com](#) and Staples for \$44.95. To learn more about iOttie's iON Wireless Fast Charging Pad and the rest of the iON Wireless series, visit [www.amazon.com](#).
