

iOttie Expands on Award-Winning 'Easy One Touch' Series With Launch of New, Versatile Smartphone Mounting and Charging Solutions

The Easy One Touch 4 series features several mounts that safely secure smartphones of all sizes to a car or bicycle.

NEW YORK - Nov. 3, 2017— [iOttie](#), creators of the best-selling smartphone car mounts on the market, today launched the Easy One Touch 4 series. The new product line features stylish and safe phone mounts that securely attach to a car dashboard, windshield, CD slot, air vent, or bicycle handlebars. Each product in the series features iOttie's signature patented Easy One Touch mechanism, which enables users to easily mount and remove their smartphone with one simple hand motion.

"The Easy One Touch 4 series is a total redesign of the previous 3 models," said Jeremy Frank, industrial designer at iOttie. "The new products reflect everything we have learned in the design and engineering process, resulting in the most robust mounts we have ever made."

[Easy One Touch 4 Dashboard & Windshield Mount](#) | \$29.95 | [Photos and Specs](#)

This universal smartphone solution is engineered to safely enhance your driving experience. The Easy One Touch 4 Dashboard & Windshield Mount securely mounts on your dashboard, windshield, or desk with iOttie's super strong suction cup and sticky gel. Utilize the increased range, strength, and stability of the newly re-designed telescopic arm (extends from 4.9" – 8.3" and pivots 225°) to find the perfect position for your smartphone.

[Easy One Touch 4 Air Vent Mount](#) | \$24.95 | [Photos and Specs](#)

The iOttie Easy One Touch 4 Air Vent Mount is a compact smartphone mounting solution that occupies minimal space on your dashboard and simplifies your driving experience. The locking side arms hold your phone securely and the mount rotates 360° to enable landscape or portrait viewing - and everything in between. Easily secure the mount to your vent with the spring-loaded vent clamp and adjust the cradle into a convenient position. Once installed, you can insert or remove your smartphone in seconds thanks to iOttie's patented Easy One Touch technology.

[Easy One Touch 4 CD Slot Mount](#) | \$24.95 | [Photos and Specs](#)

The iOttie Easy One Touch 4 CD Slot Mount takes something you likely don't use - your car's CD slot - and transforms it into an invaluable part of your driving experience. Simply insert and lock the mount into your CD slot, and adjust the cradle to a convenient position. The mount holds your device a few inches from the console, leaving buttons and controls fully accessible. Once the mount is installed, you can insert or remove any smartphone in seconds.

[Easy One Touch 4 Qi Wireless Fast Charging Mount](#) | \$54.95 | [Photos and Specs](#)

The previously released iOttie Easy One Touch 4 Qi Wireless Fast Charging Mount combines the power of Qi wireless fast charging with the agility of the Easy One Touch mounting system. Utilize the increased range and stability of the telescopic arm to find the perfect position for your smartphone on either a dashboard or windshield. Once a Qi-compatible smartphone is mounted, it will begin to automatically charge wirelessly.

[Easy One Touch 4 Bike Mount](#) | \$24.95 | [Photos and Specs](#)

The iOttie Easy One Touch 4 Bike Mount is designed to hold your smartphone securely to enhance your cycling experience. Install the mount on handlebars and bike stems ranging from 20-34mm in diameter. A flexible Safety Strap grips your smartphone tightly as you ride on bumpy roads or uneven terrain. Easily adjust viewing angles with a ball joint that elevates and tilts your smartphone for different cycling conditions.

The iOttie Easy One Touch 4 series provides users with safe, versatile and highly functional smartphone mounting solutions. All items in the new iOttie Easy One Touch 4 series, which are designed to securely hold any smartphone (2.3" - 3.5"), are now available for purchase on [Amazon](#).
