

iOttie Launches New iON Wireless Mini Fast Charging Pad

iOttie expands on its widely acclaimed line of home and office wireless charging solutions with this small yet powerful device.

NEW YORK - May 21, 2018 — [iOttie](#), a leading mobile accessories company, today launched its new [iON Wireless Mini Fast Charging Pad](#), offering customers a sleek and compact wireless charging solution. The device follows the release of iOttie's debut home and office product, the [iON Wireless Fast Charging Pad Plus](#), which Android Central [called](#) "the most stylish charging pad you can buy," due to the device's unique fabric-wrap finish and efficient wireless charging capabilities. The iON Wireless Mini Fast Charging Pad maintains the same, contemporary style that its predecessor boasts, but in a smaller form factor.

Introducing a smaller alternative into the iON Series, iOttie aims to accommodate all customers' size and style preferences. The Mini is ideal for use on desks and counters where space is often limited. Measuring 3.5 by 2.5 inches, iOttie's iON Wireless Mini Fast Charging Pad is compatible with Qi compatible smartphones like the popular iPhone 8 and X and most Samsung Galaxy devices.

iON Wireless Mini Fast Charging Pad features include:

- Qi Certified, Wireless Fast Charging up to 7.5W on an iPhone and 10W for Android devices
- Fabric wrap finish available in ash, ivory, ruby and charcoal
- Anti-slip silicone pads
- LED charging indicator
- Includes USB-C to USB-A cable and power adapter

With five generations of CES Innovation Awards for wireless charging, iOttie is an established industry leader that consistently creates some of the best charging solutions available - and its most recent addition is no exception. The iON Wireless Mini fast charging pad starts at (\$39.95) and is now available for purchase on [Amazon](#).
