

Easy One Touch 5

An Extension of the Best-Selling Universal Car Mount

The Easy One Touch 5 dashboard mount is the next generation of the best-selling smartphone mounting solutions in the U.S. This innovative mount features an Easy One Touch mechanism for a one-handed lock and release motion as well as newly redesigned telescopic arms. The arms extend from 5 inches to 8 inches and pivot on a 225° arc for a variety of optimal positions. Unique in its design and performance, The Easy One Touch 5 provides safety and efficiency on the road.

The superior quality and sleek design complement all modern automotive interiors. The universal mounting feature is compatible with all phone and case combinations from 2.3 inches to 3.5 inches and the reusable, superior suction strength allows for a secure driving experience. The Easy One Touch 5 also features a newly implemented magnetic cord holder that helps drivers maintain organization in their vehicle by simply placing the charger on the back of the car mount when they're done charging their device. The Easy One Touch 5 can be installed on any dashboard surface with a durable 3M adhesive pad.

Key Features:

- **WIDER COMPATIBILITY:** New larger Easy One Touch Button and cradle allows for wider device & case compatibility.
- **MAGNETIC CORD ORGANIZER:** Users can now keep charging cables neatly organized by the using the included magnetic tab, located on the bottom foot, to make any cable magnetically cling into place
- **TELESCOPIC ARM IMPROVEMENTS:** New Telescopic Arm extends from 5" to 8" for custom viewing angles. (Originally 6.5" with the Easy One Touch 4 Dash).
- **REDESIGNED BOTTOM FOOT:** Easier and secure to adjust by squeezing the spring button and pulling down.
- **ENHANCED SUCTION CUP:** Redesigned Suction Cup with an improved Sticky Gel Formula that provides a stronger, lasting hold.
