

Easy One Touch Connect

Alexa Built-in Dashboard & Windshield Mount

The Easy One Touch Connect is a smartphone car mount with Alexa built-in, engineered to provide drivers with access to 70,000+ Alexa Skills, including a seamless connection to smart home devices on the road. With Alexa, users can ask to get driving directions, play music, make hands-free calls, control smart home devices, and much more. To use Easy One Touch Connect, simply mount the smartphone with the Alexa App installed, and speak to Alexa within an arm's reach.

The seamless communication with Alexa is powered by dual-microphones and noise canceling software that filters out ambient road noises for a superior Alexa experience on the go. Lock and release smartphones in seconds with the U.S. Patented Easy One Touch mechanism, which automatically holds devices securely when engaging the Trigger Button. The iOttie Easy One Touch Connect with Alexa Built-in adds intelligence and performance to any vehicle for safer and smarter driving on any road.
