

iTap Wireless
Qi Wireless Car Mount

The iTap Wireless Fast Charging Magnetic Smartphone Mount is a stylish and compact solution that has the best attributes of magnetic mounting and wireless fast charging. Through this fast charging technology, your smartphone has access to a quicker and more efficient wireless charge.

The design of the Metal Plate allows for a strong magnetic connection and an optimal wireless fast charge. It's built-in fan keeps the mount cool as it pushes wireless energy to your phone. Additionally, it pairs with the DriveSmarter app which features a find your car function. Overall

this universal car mount was designed to provide the driver with a more safe and simple driving experience.
