

iOttie's Easy One Touch Wireless 2 Brings Qi Wireless Fast Charging to Google Pixel Phones

iOttie designs the first car mount to wireless fast charge Google Pixel Phones

NEW YORK — October 15th, 2019 — [iOttie](#), a leading mobile accessories company, today launched The Easy One Touch Wireless 2, the first smartphone mount that can Wirelessly fast charge the Google Pixel phones. The Easy One Touch Wireless 2 features Qi Certified Wireless charging for all smartphone devices on the market and allows users to lock and retrieve their smartphones with our patented Easy One Touch Lock and Release mechanism. We've taken the #1 Best Selling Wireless Charging Car Mount on the market and partnered with Google to design the innovative Easy One Touch Wireless 2 phone mount.

The Easy One Touch Wireless 2 is an advanced wireless charging car mount designed to maximize convenience and power on the road. Users can mount their smartphones easily with the Easy One Touch feature, once your smartphone is locked into the cradle arms, the Qi Wireless charging will begin immediately, keeping you charged for your journey ahead.

"The Easy One Touch Wireless 2 offers an exciting opportunity to support our customers' needs in new ways," said Eric Kang, Senior Director at iOttie. "We've partnered directly with Google to create the only certified Made For Google Wireless Charging Car Mount. This gives customers the quality of the #1 Best Selling Wireless Charging car mount in the United States, and a mount that is truly a universal device that can work with all Qi enabled smartphones in the market.

The Easy One Touch Wireless 2 will be available for purchase on [Amazon](#) for \$49.95, [iOttie.com](#) and at Best Buy locations as well as [bestbuy.com](#) as a CD Slot/Air Vent Mount combo beginning Friday, October 18th.

A Dashboard/Windshield version will be available later in October.
